

Download Wowza GoCoder app on mobile phone.

When you open the app, there is a wowza icon on top right. Click that.
Then go to "Wowza Streaming Engine."

Set the "**Host**"

Server: stream.boardsync.com

Port: 1935

Now set the **Application**

"Application" : DEVTESTLIVE1

"Stream Name" : DEVTESTLIVE1

Set the **Source Authentication**

Source Username: TESTAGENDADEMO

password is Civicplus

For you to test live streaming, You can go to <http://clerkqa.civicclerkqa.com/Admin/>

Go to any event, click the "Live Meeting" button. Click the "SET EVENT LIVE" button.

Change your Wowza Application setting to:

Application: CLERKQALIVE1

Stream Name : CLERKQALIVE1

Save it.

Then Start recording on your wowza app.

You should be able to see the live stream on the Event window.
